AUDITORS' REPORT

Accounts of Town Officers have been audited and are correct to the best of our knowledge.

The following are recommendations which may expedite the management of the Town's financial records and accounts and other town business during the year.

1. Recommend the Selectmen within two weeks after the Annual Town Meeting, call a meeting with all new and re-elected town officers for the purpose of reviewing guidelines and procedures to be used in dealing with town funds and accounts. In addition, the Selectmen should meet with various town officers periodically during the year to insure correct accounting of town funds.

2. Recommend the office of Tax Collector-Town Clerk make timely remittances to the Treasurer. This is a vital procedure and must be done in accordance with the law.

3. Recommend all town officers keep accurate and reliable accounts when expending town funds and know at all times the balances in their accounts.

4. Recommend, as in the past, town officers continue to accommodate each other and individuals with private or public concerns while at the same time keeping in mind our accountability to all residents, taxpayers, and the town as a whole.

FIRE CHIEF'S REPORT

On behalf of the Stark Volunteer Fire Department, I would like to thank the Townspeople for the appropriation last year of \$1,000.00. With this money we applied for and received, a \$1,000 matching grant from the State of New Hampshire, Dept. of Resources and Economic Development, Division of Forest and Lands.

With the \$2,000.00 we purchased a portable lighting generator, 3 pairs of boots, 3 helmets, 3 turnout coats, 2 folding spanner wrenches, and 600 feet of 1¾ inch hose.

Stark Fire Chief
RONALD LUNN

REPORT OF POLICE DEPARTMENT

This year the department answered a total of 157 complaints.

On January 19, 1982, two members of the Stark Police Department were certified as "Part Time Police Officers." In July of 1980 one member of the department received his certification. At the present time we have three police officers certified under the new R.S.A. requirements. Those certified are Donald Croteau, Francis Hopps, Jr. and William Joyce, Jr.

Having served as head of this department since April 1962, I will now be stepping down and will be serving as a "Special Police Officer."

At this time I would like to thank all the residents of Stark who have been very cooperative, understanding and have assisted me in any way for the past twenty years.

Especially I would like to thank my family for their cooperation and patience, all their assistance as well as all the inconveniences they have encountered these many years.

Respectfully submitted,

DONALD J. CROTEAU

REPORT OF THE PUBLIC HEALTH NURSING SERVICE, INC.

The Public Health Nursing Service, Inc. is a voluntary non-profit agency which is Medicare/Medicaid certified and also maintains a contract with Blue Cross/Blue Shield for skilled services provided to the residents of Lancaster, Whitefield, Jefferson, Dalton, Groveton and Stark. The agency is governed by a Board of Directors elected from the communities served.

Skilled services provided during the year 1981 included 2901 nursing visits, 470 physical therapy visits, and 189 speech therapy visits to patients requiring these services in their homes. All care is delivered under a treatment plan established by the patient's local physician. In addition to our care of the sick program, we have been pleased to offer several illness prevention programs.

In conjunction with the State of New Hampshire, Bureau of Maternal & Child Health, 78 children are taking advantage of our Well Child Clinics which are held monthly. The clinics provide, in addition to the physical examination, hearing, vision, urine screening, developmental testing, nutrition counseling and immunizations to all children in the towns served. Dental clinics are held twice a year, and Pre-School Hearing and Vision testing are available each year.

Monthly Blood Pressure clinics are held in each town served. We have worked closely with local Lions Clubs to provide Adult Health Screening clinics with Lancaster Public Health Nursing Service responsible for any needed follow-up.

Visits to residents of the towns served are based on service needed, regardless of race, color, creed, sex or ability to pay.

As federal programs are decreased and funding sources become more stringent with their criteria, citizens of our service area are going to look to local resources to assist with health maintenance and illness prevention programs more and more — we will be here, growing and changing to meet your needs.

NORTH COUNTRY COUNCIL, INC. ANNUAL REPORT

North Country Council provided information on historic preservation, funding opportunities for the Covered Bridge, and solid waste.

The past year was a busy one for the Council in terms of providing a variety of information and technical assistance to the towns in our region. For nine months, the Council has an active Business Development Program with a staff member contacting industries in southern New Hampshire and northeastern Massachusetts to discuss the characteristics and advantages of the region's growth centers and labor force. As a result, several companies expressed serious interest in locating their industries in the North Country. The Council was also very active in other aspects of economic development including initiation of an industrial park study in Lancaster and providing assistance to the Littleton Industrial Development Corporation in expanding their Park. An application was prepared and submitted to the Economic Development Administration for a \$600,000 Revolving Loan Fund to help finance the location of industries in growth center communities.

The mainstay of our assistance to towns has been community planning. The Council staff met throughout the year with planning boards, boards of adjustment, and master plan committees to discuss solutions to local community issues - such as zoning, subdivision review, sign, parking and mobile home regulations, recreation, and more. The Council organized a seminar for Coos County towns on the subdivision review process in April. After the amendment of the subdivision law during the recent legislative session, we sponsored three subregional seminars on the new procedure for subdivision review. Fact sheets on both the new mobile home law and the new subdivision law were prepared and sent to the planning boards and selectmen.

In the area of solid waste, the Council continues to provide assistance to numerous communities by helping them find cost-effective solutions to the solid waste problem, such as sanitary landfill, incineration, and resource recovery. The Council has also worked with legislators to draft appropriate amendments to the recently-passed solid waste law. In the area of transportation, the Council has continued to encourage the state to improve regional highways. The Council has worked in support of commuter air

service to both the Berlin Airport and the Whitefield Regional Airport. The Council worked with the Railroad Division of the DPW&H to encourage the retention and improvement of rail service on the state-owned lines in our region and also to improve other important lines such as the Conway Branch line.

In the area of community development, the Council prepared four applications for community development assistance in 1981 with one, the development of a water supply for Whitefield, receiving full funding from HUD. The Council has been keeping up on the proposed regulations to the Small Cities Community Development Program so that communities in the North Country may benefit from the grant monies as they become available through this program.

In the area of housing the Council has initiated a survey to determine the potential for rehabilitation of existing units in towns as alternative to the traditional approach of building new housing units. There appears to be general support from the area selectmen for this type of moderately-priced housing project. Energy continues to be a very important project of the Council with NCC acting as a coordinator and clearinghouse for energy conservation and planning information.

During this past session, State Legislators requested our comments on certain bills such as the proposed enterprise zone and the amendments to the Industrial Development Authority legislation. NCC continues to be active in such groups as the National Association of Regional Councils, the NH Environmental Law Clinic, and New Hampshire Regional Planning Commissions, in order to bring valuable information and services to our communities.

The Council is a very cost-effective local organization, as was shown by a recent survey which showed that for every dollar that was appropriated by towns in 1980, almost six dollars in services were provided by the Council. As in the past, the Council's major emphasis will continue to be technical assistance and information on municipal planning and development for local governments, especially selectmen, planning boards, and other related groups. The Council staff is always available to meet with local officials to discuss projects and needs of the towns and ways in which NCC can provide assistance.

On behalf of the Council and its Board of Directors, we want to thank you for your support during the past year and hope

that the Town will continue to use the services of NCC during 1982. Please feel free to contact either one of us or the Council staff in Franconia at 823-8108 or 823-5566.

REPORT OF THE OFFICE OF THE SUPERINTENDENT OF SCHOOLS

The school year began on a fast paced note, with many major concerns over the uncertainty of Federal Funds resulting from President Reagan's budget cuts, and concern over the limitations in the State's funding sources as well. Despite the budget implications those factors posed for the school districts as we planned our programs for the 1982-1983 school year, the school climate began in all buildings with a productive, businesslike approach from faculty and students alike.

One of the most significant aspects of our elementary programs this year has been the trial adoption of the Spalding Phonics Program for all children up through Grade Three. A teacher training Workshop was held for a two week period after school to introduce the program and its special teaching techniques to staff members new to Spalding, and to refresh and reinforce the program for teachers who had participated in the original training two years ago. The program itself is perhaps one of the more basic, fundamental, and effective approaches to teaching reading available today, and it is one that has had proven success for the past two decades throughout the country. In fact, the use of phonics, or the sounds letters make in words, to teach reading has its origin in the early days of public education in the United States, going back to the time honored McGuffey Readers of the 1800's. Early results from the classrooms indicate that most children move ahead much more than a full grade level in reading, spelling, and other areas of Language Arts. The staff is beginning to focus next on Mathematic Programs which will provide similar successful results.

Increased attention to Special Education for the handicapped has resulted in expansion of services in some areas, particularly in providing psychological counseling and assessments. The part-time services from the previous school year were insufficient to meet all of our counseling and testing needs, and it was necessary to purchase or contract from private providers. However, those excess costs have been dramatically reduced by having the psychologist available for four days per week instead of the previous day-and-a-half. The savings are approximately fifty percent over contracting these required services privately. The State Department of Education conducted an on-site program audit and compliance review in October, and as a result approved our programs until June of 1983. SAU 58 was the first in New Hampshire to receive approval under the new State Standards for the Education of the Handicapped since the passage of Legislation, RSA 186:C. Our programs are exemplary and attract tuition students from other school districts which lack special facilities for the handicapped, and a North Country Workshop was conducted in Stratford for all Special Education Teachers in towns from Pittsburg to Whitefield in the fall.

The final phase of the federally supported energy conservation measures was entered, with many of the projects coming to completion. Storm windows, caulking, insulation and other fuel saving materials were employed in the schools, with half the costs being paid for with Federal Funds. Although this winter has not been as initially severe as in prior years, oil consumption rates have declined, which can be attributed both to the application of energy conserving materials and increased attention

to and monitoring of thermostat settings, boiler conditions, and general energy consciousness of people using the schools.

As the new school year 1981-82 opened in Stark, two new members joined the staff. Mrs. Ann (John) Fogg commutes daily from Littleton to teach the primary grades, and Mr. John Swett travels from Dalton to fill the Title I position. With the elimination of the kindergarten, the Title I position is full time. Thus, the children have more opportunity for remedial work, especially in reading skills.

In addition to the expansion of the Title I program, the children have had the benefit of the volunteer teacher aide program. Among those who have donated time to hear children read, assist teachers in correcting papers, and provide relief on yard duty responsibility are Mrs. Astle, Mrs. Camara, Mrs. Frizzell, and Mrs. Mickelboro. The aides have freed the teachers to tend to professional tasks. The volunteers are greatly appreciated and were recruited as an alternative plan in view of the loss of teacher aides stemming from budget cuts.

Various innovations have been introduced this year to enrich and supplement the regular curriculum. The primary classes developed a class magazine with various styles of writing. Recently, they hand-crafted puppets and devised puppet shows. The intermediate grades meanwhile have been advancing in square dancing skills, improving their sense of rhythm and developing in the awareness of social courtesies.

Both classes have experienced a departmental program, exchanging twice monthly for gym and music.
